Subject Index

Because of its special nature, issue No 6 of this volume contains its own subject index (p. 325). However, the subjects listed in the index of No 6 are also included in the general index below.

Aardappel 151
Acquired resistance 283, 323
Actinomycin D 265
Air pollution 99
Alatae production 105
Alaten 111
Aleurodes proletella 171
Alfalfa mosaic virus 305
Alternaria 55
Alternating use of fungicides 67
Amphidiploid Nicotiana glutinosa × Nicotiana debneyi 275, 293
Anjers 52
Antagonism 141, 191
Antagonisme 196
Antagonist 55, 113, 121
Antagonists 21
Antiviral factors 245
Apple agglutinin 293, 306
Aspergillus nidulans 67
Aspirin 313, 321
Azotobacter chroococcum 191

Bean 99, 245, 293, 313, 317
Bean rust 317
Beet pseudo-yellows virus 171
Benomyl 55, 64
Biological control 113
Biologische bestrijding 121
Bitertanol 185
Bladbeschadiging (bij boon) 103
Bladnecrose 97
Bodemschimmels 64
b-Proteins 245, 275, 293, 317, 319, 321

Captafol 229
Carnation 47
Celery 245
Cereal aphid 105
Chemical injury 317
Chenopodium amaranticolor 153
Chitinase 293, 318
Citron 245
Citrus exocortis viroid 308
Cladosporium cucumerinum 67
Coffea arabica 188
Coffee berry disease 188
Coffee leaf rust 31
Colletotrichum 188, 190
Colletotrichum coffeanum 188
Colour form 105
Conducive soil 141
Continuous cropping 127
Cotton wool plugs 47
Cowpea 245, 293, 311, 313
Crop loss 87
Cross resistance 67
Crowding 105
Crown gall 312
Cucumber 75, 245, 322
Cucumber powdery mildew 185
Cucumis sativus 75
Cycloheximide 265

Dandelion 207
Dandelion yellow mosaic virus 207
Development of resistance 2
Didymella bryoniae 75, 85
Dispersal (of spores) 198
Dodine 67, 72
Durable resistance 31
Dynamics of microflora 55

Electron microscopy 283
Enzyme-linked immunosorbent assay 255
Epidemiology 87
Ergosterolbiosynthese 187
Ergosterol biosynthesis 185
Ethylene 265, 318
Eyespot epidemiology 198

Fenarimol 185
Fenarimol-resistant 67
Fenaimol-resistent 72
Fodder maize 127
Foliar injury 99
Fungal infection 305, 317
Fungi 67
Fungiciden 187
Fungicides 185, 321
Fungicide mixtures 2
Fungicide resistance 2, 185

Fusarium 229
Fusarium culmorum 55

Galtonia candicans 203
Geelziek 206
Gerlachia nivalis 55
Gevoeligheid 187
Glasshouse vegetables 171
Glassiness 47
Glazigheid 52
Gliocladium nigrovirens 113
Gliocladium roseum 21, 113, 223
Gliocladium sp. 21
Glomerella cingulata 188, 190
Gomphrena globosa 245, 311
Graanbladluis 111
Grafting experiments 275
Guazatine 67
Gynura aurantiaca 245, 293, 308

Helianthus annuus 153, 168
Hemileia vastatrix 31
Holocene and pleistocene soils 21
Hormiactis fimicola 21, 113
Host mediated variation 153
Host plant 105
Hyperparasieten 228
Hyperparasites 223
Hypersensitive reaction 245, 275, 322, 323
Hypersensitivity 283

Imazalil 185
Incomplete resistance 31
Induced antagonism 223
Induced resistance 322
Inhibitor of viral replication 245
Interspecific hybrids 275
Intraspecific hybrids 275

Kasgroenten 182
Koffiebesziekte 190
Koffieroest 43
Komkommer 85
Kruisresistentie 72

Late blight epidemiology 2
Leaf necrosis (in wheat) 87
Lettuce 207
Local lesions 283
Localized infection 321, 323
Lycopersicon esculentum 293

Maize 127, 229
Malus sylvestris 293
Mancozeb 2
Melon 306
Meristeemcultuur 52
Meristem tip cultures 47
Metalaxyl 229
Metalaxyl (resistance to) 1
Metal caps 47
Microbial balance 55
Microdochium bolleyi 55
Mixtures of fungicides 67
Monitoring 2
Mortierella 55
Muscari armeniacum 203
Mycoparasites 113
Mycosphaerella citrullina 75
Mycosphaerella melonis 75
Myelinic bodies 283

Nagebootste regen 201
Nematicide 127
N gene 275, 283
Nicotiana 245, 275, 293, 319, 321
Nicotiana clevelandii 153
Nicotiana debneyi 275
Nicotiana glutinosa 275
Nicotiana rustica 153
Nicotiana sylvestris 275, 293
Nicotiana tabacum 255, 275, 283, 293, 311, 321
Nicotiana tomentosiformis 275

Opbrengstderving (bij tarwe) 97
Oxamyl 127, 229
Ozon 103
Ozone 99

Paardebloem 221
Paardebloemegeelmozaïekvirus 221
Pathogenesis 245
Pathogenesis-related proteins 245, 255, 265, 275, 283, 293, 308, 310, 311, 312, 313, 317, 318, 319, 321
Pathogenicity 31
Pathogeniteit 43
Penicillium expansum 67
Penicillium italicum 67
Penicillium sp. 21
Periconia macrospinosa 55
Peronospora tabacina 321

Phaseolus vulgaris 99, 103, 293, 317
Phytophthora infestans 1
Polyacrylamide gel electrophoresis 255, 293
Polyacrylic acid 321
Polyglucan elicitor 317
Pootaardappelen 151
Potato 21, 113, 141, 245, 311
Pratylenchus 127, 229
Proteinase inhibitors 245
Pseudocercosporella herpotrichoides 55, 198
Pythium 229

Race spectrum 2
Resistance 245, 275, 319, 323
Resistance to virus infection 207
Resistentie tegen metalaxyl 19
Rhizoctonia solani 21, 113, 121, 141, 151, 191, 223
Rice 306
Rogge (halmvoet, wortels) 64
Root lesion nematodes 127
Root rot 229
